EMBARGO POLICY

Media are required to abide by the embargo policies governing the *WORLDSymposium*. The embargo policy states that coverage of abstracts being presented at the annual meeting is strictly prohibited until the start time of the presentation or the beginning of the media briefing containing the research, whichever comes first. The embargo on poster presentations lifts when the poster session containing the poster opens for viewing. Content that may be pre-published online in advance of print publication is still subject to the *WORLDSymposium* embargo policy. Abstracts not scheduled for presentation at the annual meeting have an embargo date of the official release of the abstracts to the public, and press releases on these abstracts must contain the following notification: "This abstract was not selected for presentation at an oral or poster session; it was printed in the *WORLDSymposium* Program and Abstracts Book."
